wanderdrop

travel with mystery

Made with GAMMA

Travel is broken for Gen Z.

Too Much Choice

73%

of Gen Z travelers report decision fatigue, ending up visiting the same places everyone else visits.

The paradox of choice kills spontaneity.

Tourism Kills What It Loves

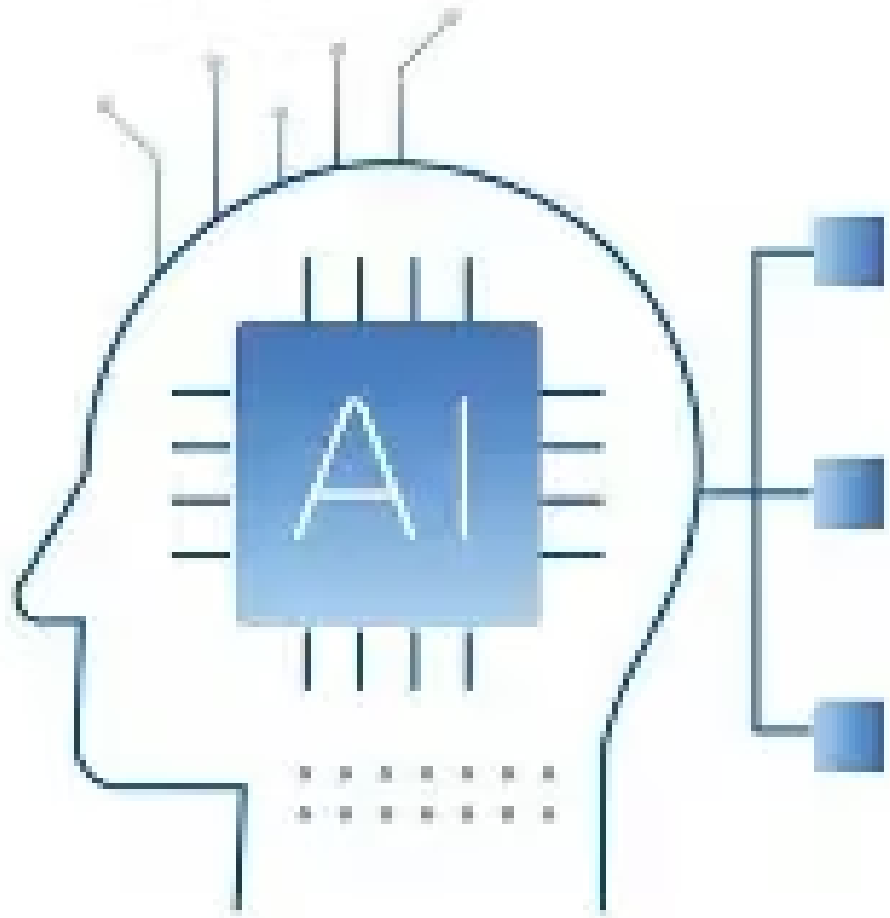
1%

of destinations absorb over 80% of global tourist traffic, while thousands of hidden gems stay invisible.

Overtourism suffocates local culture.

The problem is not a lack of destinations. It is a lack of courage and the right tool to find them.

Made with GAMMA



Let the AI decide.

1

Set Your Preferences

Budget, dates, climate, travel style. No destination input.

2

AI Picks in Secret

AI selects a bold, underrated destination. You see cryptic hints.

3

Revealed 48 Hours Before

Destination, itinerary, and first mission unlock together.

No spreadsheets. No endless tabs. No tourist traps. Just drop.

Made with GAMMA

Four features. One complete product.

The Drop

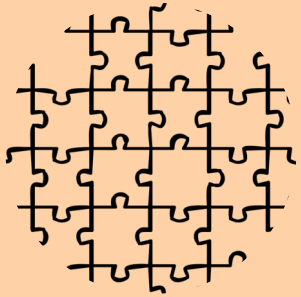
You set preferences. AI secretly picks your destination and builds a personalized itinerary.

You find out 48 hours before departure through a cinematic reveal moment.

Local Gems

Locals post hidden spots — secret cafés, unmarked viewpoints, family kitchens.

Each gem has an AI Authenticity Score that drops as tourist attention grows.



Wanderer Profile

Every trip, saved gem, and completed challenge builds a six-axis travel personality map.

The AI uses it to improve every future drop and match you with complementary companions.

Daily Challenges

Every morning the AI delivers one mystery mission tied to your current city and explorer type.

Complete challenges to earn XP, unlock hidden gem tiers, and build your profile faster.

Our Vision: Redefining Exploration

Team Deep Flux believes travel should be an adventure, not a checklist. We're building the future of spontaneous, authentic global exploration.

Ignite Spontaneity

Reawaken the joy of unexpected journeys and diverse discoveries.

Uncover Hidden Gems

Redirect tourism to less-traveled, authentic destinations globally.

Empower Local Culture

Foster sustainable travel that respects and benefits local communities.

Tapping into the Uncharted: A Multi-Billion Dollar Opportunity

The travel landscape is ripe for disruption. A new generation of travelers seeks authentic experiences, while advanced AI offers unprecedented personalization and discovery.

$350B

Gen Z Spending

Projected Gen Z travel market by 2030.

99%

Untapped Destinations

Percentage of destinations currently overlooked by mass tourism.

$1.2B

AI Travel Tech

Expected value of the AI in travel market by 2027.

Pioneering Sustainable Travel: Our SDG Commitment

Our app is not just about discovery; it's about making a positive impact. We align with key United Nations Sustainable Development Goals, fostering travel that benefits both people and planet.

SDG 11: Sustainable Cities & Communities

By diversifying tourist flow to lesser-known locales, we reduce pressure on overcrowded destinations and help preserve local heritage and urban ecosystems.

SDG 8: Decent Work & Economic Growth

We stimulate local economies in emerging destinations, creating new revenue streams and employment opportunities for residents, promoting inclusive growth.

SDG 12: Responsible Consumption & Production

Our focus on authentic experiences encourages mindful travel choices, reducing the environmental footprint and promoting more responsible tourism patterns.
